Expert Flower Growing Tips

Choose the Right Seeds: Start with high-quality seeds suited for your climate and soil. Starke Ayres offers a variety to match different conditions, ensuring your flowers thrive from the start.

Optimal Planting Conditions: Use well-draining soil and plant at the correct depth. Proper spacing between plants helps prevent diseases and allows for healthy growth.

Consistent Watering: Keep soil consistently moist, but avoid overwatering. Deep watering supports strong root development, crucial for vibrant blooms.

Strategic Fertilisation: Use a balanced fertiliser during the growing season. This boosts bloom production without encouraging excessive foliage.

Pruning and Deadheading: Regularly remove spent flowers and prune to shape the plants. This promotes continuous blooming and a lush garden appearance.

VARIOUS COLOURED SHADE CLOTH AVAILABLE
AT ALL AGRA BRANCHES COUNTRYWIDE.

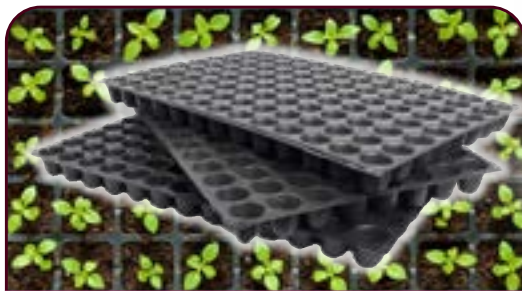

Tips

What is the purpose of shade cloth?

Shade cloth provides up to **95% UV block** dependant on the shade percentage used, while still allowing air to pass through, for a more **pleasant outdoor experience**.

Shade cloth is used to protect plants from too much heat from the sun. It is also used to **improve the diffusion** of light and provide ventilation for the plants.

One of the important aspects to consider when selecting a shade cloth is the **colour**.

Create a Bird-friendly Environment

during Spring and Summer

FEED BIRDS: Use feeders to support adult birds raising their young. Young birds learn to eat from feeders like peanuts and suet cakes.

OFFER FRESH FRUIT: Hang oranges and grapes to attract colorful birds like orioles, robins, catbirds and mockingbirds.

PROVIDE SHADE: Plant native plants for birds to find shelter from the summer heat.

Tips for pet owners during Spring time:

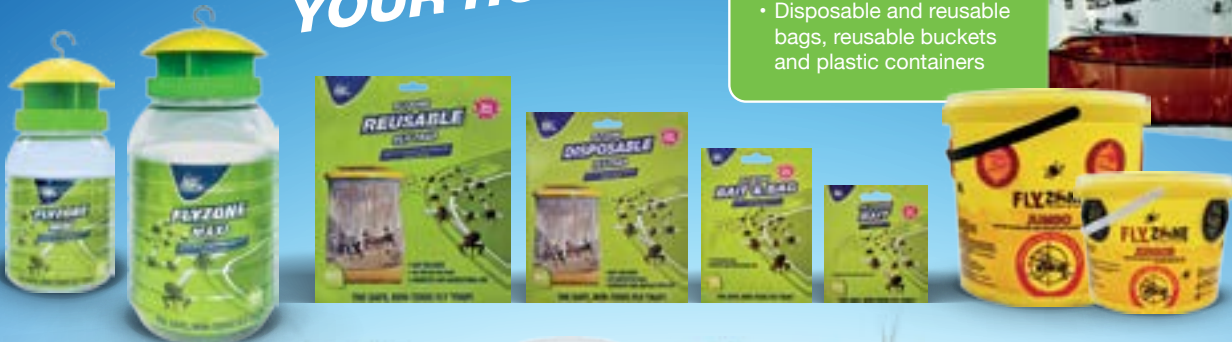

1. Limit dog walks when it is hot.
2. Make sure your pet has a constant supply of water.
3. Give your pet a shave or a haircut.
4. Never leave your pet alone in the car.
5. Make sure there is shade available when taking your pet on walks.

GET RID OF DISEASE CARRYING & NUISANCE **PESTS** IN AND AROUND YOUR HOME!

FlyZone

- Fly attractant
- For domestic and agricultural use
- Safe to use, non-toxic organic protein bait
- UV protected bags for a longer lifespan
- Disposable and reusable bags, reusable buckets and plastic containers

Alphathrin

- Controls cockroaches, flies, mosquitoes, fleas, fishmoths and bedbugs
- Ideal for food processing plants
- Quick knock down, long lasting residual action
- No smell, no staining
- Strong concentration, use only 5 ml per liter water

Fiprogel Roach Gel

- Ready-to-use true gel bait controls american, oriental and german cockroaches and their nymphs
- Can be used inside and outside including food preparation and storage facilities and domestic premises
- Quick knock down

Fiprogel Ant Gel

- Ready-to-use true gel bait controls ants
- Can be used inside and outside including food preparation and storage facilities and domestic premises
- Quick knock down

Terminex 350 SC

- Protects against wood destroying termites
- Value for money
- Strong concentrate
 - 50 ml treats 13,8 m²
 - 200 ml treats 55,5 m²
 - 500 ml treats 138 m²
- Apply 5 l mixture to 1 m²
- Trench, nest or foundation treatment, pre or post construction

VAPRO FOGGER

- Vapro is a scientifically advanced, multi-faceted approach to controlling heavy insect infestations.
- The 3-hour treatment period which covers 173m² provides a rapid knockdown and kill effect, resulting in increased relief from the infestation.
- Vapro is formulated to assist in combatting reinfestation through inhibiting insectile breeding within the current insect infestation.

300ml

119⁹⁵

269⁹⁵

1L

DELTACIDE SC

- Deltacide is a residual spray solution formulated to control a broad spectrum of flying and crawling insect pests.
- The formulation specifically allows for rapid absorption through the insect's cuticle.
- Deltacide is registered as a non-phytotoxic product which will not harm any garden plants and/or lawns once applied.
- Dilution rate: 20ml to 40ml per 1L of water.

DOMINO ANT AND COCKROACH GEL BAIT

- Domino Gel Bait is a scientifically tested ready to use fipronil based gel bait to control all common species of cockroaches and ants.
- Domino is a very cost effective, colourless, and odourless gel bait formulation which is ideally suited for all problematic treatment areas both indoors and outdoors.
- Dosage rate: 0.03g – 0.09g per m².

179⁹⁵
35g

189⁹⁵

200g

OPTIMA MULTI INSECT GRANULES

- Optima Multi Insect granules is an advanced baiting system registered for the control of all common species of ants, cockroaches, crickets, and mole-crickets.
- Provides a delayed targeted killing effect designed to control the nest from the inside.
- Dosage rate: 1g-2g per m² and may be used both indoors and outdoors.

Get your pool ready for the
Spring & Summer:

- Shock the pool weekly to remove contaminants.
- Run pump and filter 8-12 hours daily.
- Clean skimmer baskets and pump strainer regularly.
- Brush pool walls and floor weekly.
- Test chlorine, pH, and alkalinity levels twice a week.
- Backwash or clean filter as recommended by manufacturer.

Available at all Agra branches countrywide or can be ordered,
while stocks last. Errors & omissions are excluded.

Tips

1. Create a mood with subtle lighting.

Use outdoor lighting strategically to create ambiance.

2. Choose Comfortable Furniture.

Opt for comfortable seating such as cushioned chairs, sofas or even hammocks if space allows.

3. Add Soft Textures.

Incorporate soft textures like outdoor rugs, throw pillows and blankets.

4. Greenery and Plants.

Incorporate plants and greenery to soften the space and add natural beauty.
